The Virginia Technology Zones Act, § 58.1-3850 et seq., of the Code of Virginia, as amended, authorizes the establishment of one or more technology zones by ordinance. It is the purpose of the Technology Zone Act, and of this article, to stimulate business and industrial growth within the area so designated as the Gate City Technology Zone by means of local incentives more particularly set forth herein.

29.1.3 Administration. The technology zone administrator shall be the Town Manager or his designee. The Town Manager shall determine and publish the procedures for obtaining the benefits created by this chapter and for the administration of this chapter.

While there may be other business categories that could be interpreted as technology businesses, the determination will be based upon the nature of the work and/or research involved. - c. New business. A business not previously conducted in the Commonwealth that begins operation in a technology zone after the zone was designated. A new business is also one created by the establishment of a new facility and new permanent full-time employment by an existing business firm in a technology zone and does not result in a net loss of permanent full-time employment outside the zone and whose primary operation is listed in this section.

To qualify, the company must have a minimum of three employees and an investment of at least \$10,000.00. The investment may be established by the value of personal property, real estate owned, or the value of a lease of real property for the operation of the technology business.
